GOVERNMENT OF KERALA

Water and Power (Electricity A) Department

NOTIFICATION

No. 3902/ELA1/73/W&P, *Dated, Trivandrum, 1st November* 1973.

S. R. O. No. 688/73.—In exercise of the Powers conferred by section 11 of the Kerala Electricity Duty Act, 1963 (23 of 1963) the Government of Kerala hereby exempt the Trichur Municipality (Licensee for the distribution of electricity in the Trichur Municipal area) from the payment of duty under Section 3 of the said Act for a period of one year with effect from 1-4-1973 in respect of the energy sold by it to the Industrial consumers within the area of its supply subject to the condition that the licensee shall not collect tariff from those industrial consumers at more than fifteen paise per unit for the first two thousand units and at fourteen paise per unit for the quantity supplied in excess thereof.

By order of the Governor.
V. U. K. NAMBISAN,
Joint Secretary.

Explanatory Note

This note is not a part of the above notification, but is intended to indicate its general purport.

The Kerala State Electricity Board enhanced its grid tariff charged to licensees with effect from 1-4-1970. The increase was from 8.8 paise to 12 paise per unit. Consequent to this revision, the Trichur Municipality (licensee for the distribution of electricity in the Trichur Town area) also revised its tariff rate to consumers with effect from 1-4-1970. In the case of industrial consumers the tariff was revised from 12 p. for the first 2000 units to 24 paise per unit and for units in excess of 2000 units from 11 paise to 23 paise.

The State Electricity Board is supplying power to the Industrial consumers at 15 paise per unit for the first 2000 units and at 14 paise per unit in excess thereof. One reason for the steep increase in the tariff charged by the Trichur licensee is the provision under section 3 of the Kerala Electricity Duty Act, 1963 which stipulates that the licensee shall pay duty at 6 paise per unit of energy sold at a price of more than 12 paise per unit. The average cost of purchasing current by the licensee from the State Electricity Board will work out to nearly 12 paise per unit and if the 6 paise duty payable to Government under section 3 of the Act is added, the total cost

would come to 18 paise per unit. The licensee has to meet the maintenance cost of the industrial connections in addition to the above. If the tariff rates of the Kerala State Electricity Board are adopted in respect of the Industrial connections, the Trichur licensee has to supply current at a lower rate than the average cost resulting in heavy loss to the licensee. The exemption granted under the above notification is in continuation of the exemption granted in Notification No. 14442/ELA1/70/W&P dated 30-3-1971 and is to enable the licensee to reduce its rates of tariff to the industrial consumers to the rates charged by the Board to its consumers and this is necessary in public interest and to avoid discrimination of a higher tariff to the industrial consumers in the Trichur area.

(This is not part of the notification, but is intended to indicate its purpose). As per G. O.
